Explain why this is the correct shot clock to apply to this application:

9) Description of proposed facilities:

- A separate and complete description of each proposed wireless telecommunications facility and the work that will be required to install or modify it, including, but not limited to, detail regarding proposed excavations, if any; detailed site plans showing the location of the facility and technical specifications for each element of the facility, clearly describing the site and all structures and facilities at the site before and after installation or modification; and describing the distance to the nearest residential dwelling unit. Before and after 360-degree photo simulations must be provided for each site.

10) Other licenses and permits:

- A copy of the FCC license for the facility or a sworn written statement from the applicant attesting that the facility will comply with current FCC regulations must be attached to this application.
- To the extent that filing of the wireless permit application establishes a deadline for action on any other permit that may be required in connection with the wireless telecommunications facility, this application must include complete copies of such other permit applications (including for instance but not necessarily limited to electrical permits, building permits, construction permits, traffic control permits, right-of-way permits, excavation permits and erosion control permits), with all engineering completed and with evidence of payment for all fees associated with each permit.

11) Structural requirements.

- A certification by a registered and qualified engineer that the installation can be supported by and does not exceed the tolerances of the structure on which it will be mounted and that all elements of the wireless telecommunications facility comply with applicable safety standards must be attached to this application.

12) Fees:

- The fee for application shall be as established and periodically updated by the Village Board from time to time but in no case less than \$500 for a single upfront application that may include up to 5 wireless facilities plus an additional \$100 for each facility beyond 5. For applications which include placement of a new pole, the application fee shall be not less than \$1000. Full payment of application fees must be rendered at the time an application is submitted.
